Mr. Ronald Santini  
VP, Transmission & Distribution  
Champlian Energy, Inc.  
Three Champlian Drive  
Crossroads, NC 12345

Dear Mr. Santini,

The Friends of Nebo Valley formally protests the construction of a new electric transmission line through the Nebo Valley for the following reasons:

- Construction of the transmission line will take valuable public and private property.
- Our pristine water resources will be contaminated by erosion and runoff during the construction process.
- Essential wildlife habitat will be destroyed.
- The aesthetic and visual beauty of the valley will be forever impacted by the unsightly towers and lines, and right-of-way.
- Population projections and demand for electricity over the next 25 years are estimated to be flat and may even decline, therefore negating the need for this line.

We ask that you provide written answers to these concerns and consider halting further siting of the this electric transmission line.

Sincerely yours,

Friends of Nebo Valley.
