“Shale Oil and Gas Development” Fact Sheet Series

Oil and Gas Pipeline Easement Checklist

Mark Landefeld Extension

Educator, Monroe County **Peggy**

Kirk Hall

Director, OSU Agricultural & Resource Law Program

The following is a general list of typical provisions to include in an oil and gas pipeline easement agreement. Refer to our “Understanding and Negotiating Pipeline Easements” Fact Sheet for a more complete explanation of issues and terms. We also encourage landowners to seek the assistance of an attorney and other professionals who can help assess the easement agreement and address specific issues and concerns for an individual situation.

Granting Clause

- _ Clear statement of the property rights landowner is granting.
- _ No requirement for landowner to warrant a clear title to the property.

Easement Location

- _ Accurate legal description of the location of the easement, including width of the pipeline easement and requirement for a post-construction survey establishing final easement location.
- _ Location of temporary construction easement, if applicable.
- _ Required minimum depth of pipeline, from land surface to top of pipe.

Limitations on Use of Easement

- _ Number of pipelines allotted on the easement.
- _ Actual or maximum size of pipeline.
- _ Pipeline pressure limitations.
- _ Limitations on types of substances to be conveyed through pipeline.
- _ Limitations on additional surface and subsurface structures or facilities on the easement.
- _ Landowner’s rights to use the easement area for specified purposes.

Construction

- _ Timetable for construction and installation of the pipeline.
- _ Damages for injuries resulting from failure to meet construction deadlines.
- _ Landowner’s access rights to home, driveways, barns, fields, etc. during construction.

THE OHIO STATE UNIVERSITY

COLLEGE OF FOOD, AGRICULTURAL,
AND ENVIRONMENTAL SCIENCES

- _ Adherence to Best Management Practices and Ohio Department of Natural Resources pipeline standards and construction specifications.
- _ Methods for replacing topsoil and vegetation after construction
- _ Requirements for restoration of land surface after construction
- _ Restrictions on use of landowner's property for construction-related activities such as parking, equipment storage and sanitary stations.
- _ Requirements for crossing waterways on the property during construction.
- _ Minimization of impacts on woodlands and timber.
- _ Minimization of impacts on field crops.
- _ Procedures for addressing impacts on drainage, fencing, gates or other land improvements.
- _ Management of livestock or other business uses on property during construction.
- _ Markers to identify location of pipeline upon completion of construction.

Maintenance of the Pipeline

- _ How and where to access the pipeline easement for inspection and maintenance.
- _ Defined boundaries for inspection and maintenance activities.
- _ Routine inspection and maintenance schedule, including prohibited times for inspection and maintenance activities.

Landowner Liability

- _ Indemnification provision protecting landowner from liability for acts of company and third parties.

Termination and Abandonment

- _ Termination date for easement, if applicable.
- _ Conditions for automatic termination, such as failure to construct pipeline.
- _ Clear definition of actions or inactions that result in abandonment of the pipeline.
- _ Company's obligations for notification and removal of structures and equipment following termination or abandonment.

Miscellaneous Considerations

- _ Procedures for addressing and handling disputes.
- _ Assignment rights and procedures for assignment to another company.
- _ Procedures for amending the easement agreement.

Payment Terms

- _ Payment for the permanent pipeline easement, based on specific property characteristics and circumstances.
- _ Payment for a temporary construction easement, if applicable.
- _ Payment for damages resulting from construction, maintenance and long-term presence of the pipeline on the property, including harm to or loss of timber, crops and soil.
- _ Reimbursement of attorney or appraisal fees, surveys and other costs.

Summary

Use this checklist to help assess the provisions in an oil and gas pipeline easement. This fact sheet is not intended to take the place of legal advice; landowners should seek the assistance of an experienced attorney to assist with pipeline easement review.

This fact sheet is in draft form and has been submitted to Ohio State University Extension for final publication by The Ohio State University.
